

# DIY FRIDAYS

PROJECT : Cork Coasters

#DIY119

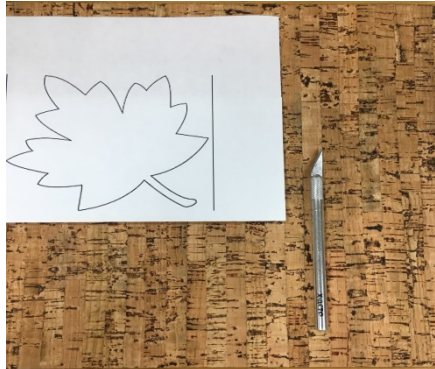

**TOOLS & MATERIALS:** Heritage Mill Wall Tile(s), Shape Cut-Outs, X-ACTO Knife

## Step 1

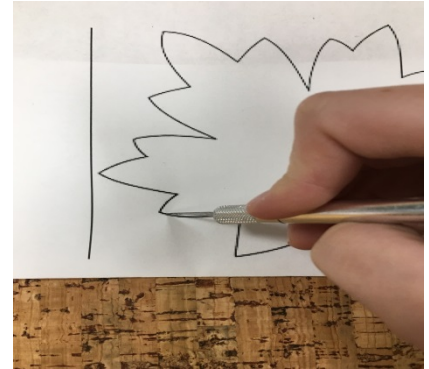

Choose which Heritage Mill wall tiles you want to use. We used Natural Straw (WC1003), Champagne (WC1001) and Stormy Clouds (WC1002).

## Step 2

Gather your supplies and print your shape cut-outs. We chose to do a leaf, octagon and circle. **Tip:** Be sure to protect the surface prior to cutting!

## Step 3

Begin by placing the cut out on top of the wall tile and use an X-ACTO knife to cut along the edges of the shape.

## Step 4

Gently push out the cut portion of the wall tile.

## Step 5

Repeat these steps with your other shapes/wall tiles.

## Step 6

Display your new cork coasters. They're a perfect fall décor item!
